

D series Price Computing SCALES

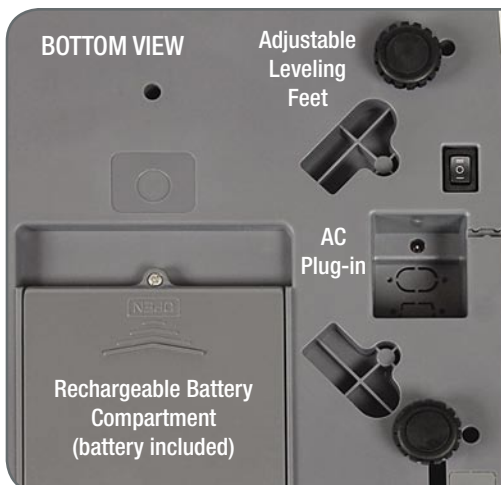

Detecto Model D30
Price Computing Scale

Easy-to-Read Backlit LCD Stainless Steel Washdown Platform

DETECTO's low-profile D series price computing scales offer up to 99 easy-to-add PLUs for fast reference (14 direct quick keys and 85 indirect PLUs). The D series displays Weight, Unit Price, and Total Price on the front and rear backlit LCDs (up to six 0.5-in / 13-mm high digits) for both the operator and customer to view simultaneously. The D series offers accurate and reliable weighing for farmers markets, delis, bakeries, candy kiosks, coffee shops, convenience stores, produce markets, and hardware stores. Auto Shut-off, Sleep, and Backlight Off modes extend the retail scale's battery life.

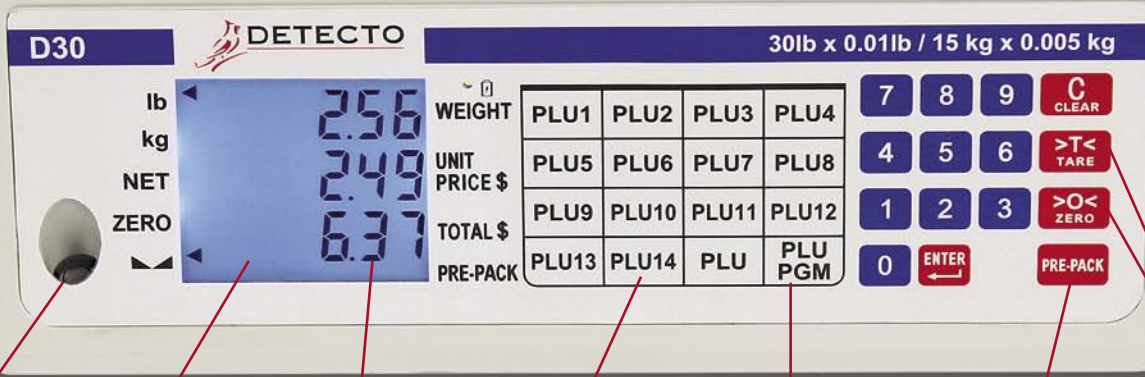

The NTEP legal-for-trade scale's Pre-Pack key saves time by retaining the Unit Price and Tare for repetitive price computing, making the operator's job even faster. Adjustable, nonskid feet and internal bubble level ensure steady and accurate weighing, plus a beep provides audible confirmation of key presses. Weighing capacities range from 15 lb x 0.005 lb / 6 kg x 0.002 kg up to 60 lb x 0.02 lb / 30 kg x 0.01 kg. The high-grade, molded polymer enclosure with color-coded sealed membrane keypad and lift-off, wash-down stainless steel platform make cleaning easy.

Rechargeable Battery Pack for Cordless Use in Kiosks and Farmers Markets

DETECTO's D series price computing scales offer a dual power source of rechargeable battery pack and 110/120VAC 50/60 Hz adapter (included). Charge it up and it will last 120 working hours of continuous use with the backlight turned off.
