

PTS Pallet Truck Scale

Adam Equipment's PTS pallet truck scale allows users to measure the weight of objects as they're moved from one place to another whether it's in a warehouse, on the production floor, or the shipping department.

The sleek, low profile design of the PTS coupled along with non-marring wheels, steel pallet forks, and zero radius pivoting handle make the PTS a must have for commercial and industrial users.

Included with the PTS is Adam's AE 402 indicator providing a wide range of different features and functions for fast and accurate results. The AE 402 is IP66 sealed for dust and water environments.

With nearly forty years of experience in the production of weighing equipment you can trust Adam for quality products that offer a range of features designed for many different applications.

AE ADAM[®]
PERFECT BALANCE
Speed, Performance, Value

PTS Highlights:

When using the PTS with the AE 402 indicator for quality control, the Check weighing feature with colored LED indicators can quickly indicate underweight, overweight and acceptable limits.

Zero turning radius pivot steering provides mobility for tight spots and the solid pneumatic pump makes for better control when handling heavy weights.

Manage overloads with ease. The capacity tracker shows where you are in the weighing range. The display monitors the weight value and warns you as you are getting to the scales capacity.

Large keys are color coded to clearly identify the more frequently used buttons. An internal rechargeable battery with auto-off power saving function, lets you use the PTS where you need it without the need to plug it in all the time.

Solid construction with non-marring polyurethane wheels, reinforced steel pallet forks and a stainless steel housing make for a durable industrial pallet truck scale.

The most flexible pallet truck scale available to meet today's demanding commercial and industrial applications

Solid Wheels

The PTS is easily moved around on a set of solid non-marring polyurethane wheels.

Steel Beam Forks

Pallets easily glide onto the steel beam forks supported by solid wheels.

Rugged Construction

Solidly built, the PTS will provide years of trouble-free service under normal use.

AE 402 Indicator

Power Supply

Internal rechargeable battery.

Color Coded Keys

Color coded keys make identifying functions quick and easy.

Large Backlit Display

Weights are quickly and easily read on the large and brilliant backlit LCD display.

Features

- Hold Function
- Full range tare
- Backlit LCD display
- Wall mount bracket
- Digital filters
- Internal rechargeable battery
- Supports up to four 350 ohm loadcells
- Quick and easy keypad configuration
- External calibration
- Large display
- IP66 indicator
- Steel construction
- Uni-directional RS-232 interface
- Check weighing LED lights
- Capacity Tracker

Technical Specifications

Model	PTS 5000a with AE402
Capacity	5000lb / 2000kg
Readability	1lb / 0.5kg
Linearity (+/-)	2lb / 1.0kg
Fork Size	6.3" / 160mm (W) x 45.2" / 1150mm (L)
Weighing Units	Pound (lb), Kilograms (kg), Ounces (oz)
Applications	Weighing, Accumulation, Check weighing Animal / Dynamic weighing, Percentage weighing
Stabilisation Time	2 sec
Interface	RS-232 Bi-directional
Power Supply	Switchable 115v-230vAC Output 12vDc 800mA
Calibration	External calibration
Display	Backlit LCD display with LED check weighing lights
Net Weight	275lbs / 125kg
Overall Dimensions Dims: L x W x H	61.02" x 21.25" x 48.4" / 1550 x 540 x 1230mm
