Thank you for your decision to purchase this high quality bathroom scale. Please peruse read this instruction manual prior to first start up and keep this user instruction careful to have this information on hand whenever it is needed.

2. Conditions of use

If possible, the weighing should take place undressed. Please keep the weighing conditions constant always at the same daytime. By nature, a body is subject of fluctuations (for example loss of water after taking exercise or after a sauna visit, after a meal, etc.). To enable comparable readings it is important to take the weighing as possible always under the same conditions.

ADE Germany takes no responsibility for any damages or losses caused by the use of this body analyzer scale or for Third Party claims. This product is exclusive intended for private use. This product is not for commercial or professional use in hospitals or other medical facilities.

2. Commissioning

Before first time use of the scale, please check at the beginning carefully if there are any damages at the packing or at the device. Not on any account use the device if it is damage. In this case, please immediately contact us. Our staff members willingly will help you.

Safety guidelines: The appliance is not intend for the use of persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they get supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

Place the scale on a plane and firm surface (tiles, hardwood flooring, etc.) to avoid a wrong measurement on carpeted floor.

Always stay in the centre of the scale to prevent the scales tipping to the side.

Attention - Hazard of slips! Do not stand on the scale with wet feet or on a slippery surface of the weighing platform.

Please care that no heavy object may fall on the scale. The glass surface is breakable.

Clean the scale only by using a slightly damp cloth. Do not use solvents or abrasive cleaning agents. Do not submerge the scale under water.

Preparation:

Open the battery cover at the bottom side of the scale and remove the battery safety strip. Please ensure the correct polarity of the batteries (+/-).

There is a little black push button next to the battery case (KG/LB/ST) for country specific settings with the option to switch from KG = kilogram to LB = pound or ST = stone. Please pay attention to use the scale under consideration of your country specific unit of weight.

3. Weighing function

1. Switch-on the scale by using the tap-on-function. For this, tap with your foot short and forceful on the centre of the scale. The display indicates the signal "8888" and a few seconds later "0.0 kg". Now the scale is ready to use.
2. Step on the centre of the scale. Remain stationary on the weighing platform and do not hold you tight. After a few seconds, your weight will be indicating in the display.
3. After weighing, step off the scale. The scale will switch-off automatically after a few seconds.

4. Error Messages

- "FFFF" = Overload
The weight exceeds the maximum capacity of 150 kg. Please immediately remove the critical load to avoid load cell damage.
- "Lo" = Batteries are used up
Please replace the battery with the intended type (1 x CR 2032).

5. Technical Data

Capacity x graduation:	max. 150 kg x 100 g
Dimensions:	300 mm x 300 mm x 18 mm
Battery:	1 x CR 2032 (included)

Subject to technical modifications

6. Warranty

ADE warrants for a period of 3 years from the date of purchase that it will remedy any defects due to faulty material or workmanship free of charge by repair or replacement. When purchasing, please have the warranty coupon signed and stamped by the dealer. When making a guarantee claim, please return the weighing scale together with the guarantee card including the reason of complaint to your dealer.

CE-Conformity - This device features radio interference suppression in compliance with valid EC Regulation 2004/108

Note: The displayed value may be adversely affected under extreme electromagnetic influences, e.g. when using a radio unit in the immediate vicinity of the device. Once the interference has been rectified, the product can once again be used for its intended purpose. The device may have to be switched-on again.

Statutory instructions on battery disposal

Batteries must not be disposed as household waste. The law requires that you, as consumer, return the waste batteries either to public collection points in your town or village or to any outlet selling batteries of the same kind.

Note:

Batteries are marked as follows:

Li = Battery contains Lithium

Al = Battery contains Alkali

Mn = Battery contains Manganese

CR (Li); AA (Al, Mn); AAA (Al, Mn)

Disposal of old electrical and electronic equipment

This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead, it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. For more detailed information about recycling, contact your local city office, your household waste disposal service, or the shop where you purchased the product.

With kind regards

ADE (GmbH & Co.)
