

VX Series

Standard Floor Scales and Platforms

VX Series shown with optional ramp

VX Series Platform with T32XW indicator

Counting function is not legal for trade

Performance, Ruggedness, OHAUS Quality & Value

The OHAUS VX Series is a portable low-profile floor platform and indicator scale package. It is the ideal solution for freight consolidators, forwarders, processing plants, resellers, shipping and receiving departments, as well as startup businesses. Quick connects and factory calibration allows the package to operate out-of-the-box with minimal setup. This time saving solution combines a 5000d NTEP approved floor scale (VX2500L and VX5000L) and a stainless steel NEMA 4X/IP65 indicator (T32XW) featuring an RS232 interface, high-visibility backlit LCD display, counting function and easy-to-operate positive feedback keys.

Standard Features Include:

- 2,500 lb, 5,000 lb, and 10,000 lb scale capacities
- 4' x 4' and 5' x 5' platforms with structural bracing that ensures a rigid construction
- 3/16" (up to 5,000 lb models) and 1/4" (10,000 lb models) thick top plate with raised cross-hatch surface for added durability and slip resistance
- Four IP67 nickel plated alloy steel load cells
- Side access NEMA4X/IP65 dust and water protected junction box with 25' long cable
- Features eye bolt mounting holes to allow easier lifting and positioning of the platform
- Factory-wired and pre-calibrated with OHAUS T32XW stainless steel indicator featuring:
 - 304 stainless steel construction with NEMA 4X/IP65 protection
 - Backlit LCD display with high-visibility 1" high digits
 - Five weighing units (lb, kg, g, oz, lb:oz)
 - Piece counting mode for warehousing and inventory applications
 - Wall mount bracket included
 - Rechargeable lead acid battery operation

VX Series Standard Floor Scales and Platforms

VX Series Floor Scales Include The Durable T32XW Indicator

T32XW Features:

- Large 1" high digit backlit LCD display quickly displays results in a choice of either lb, or kg, as well as oz, lb:oz or g. lb:oz not available in NTEP certified operation. The power-on unit is selectable, and either one or more units can be turned off for easier use.
- Includes Counting Mode with a minimum Average Piece Weight of 1d, selectable sample sizes, automatic retention of last sample size used and Average Piece Weight. For installations where Counting Mode is not required, the parts counting software can be selected off.
- Built-in bidirectional RS232 interface for printing or connection to PC. Printing intervals can be set to manual (using Print key), continuous, on stable weight, or an interval between 1 second and 60 minutes.
- Geographical gravity correction software allows quick adjustment of calibration to local conditions without need for recalibration of the VX Floor Scale. All VX Floor Scales are factory calibrated in the U.S. and must be set to match local gravity situation.
- Durable membrane switch keypad with dedicated Print, Tare and Function keys for quick and easy operation
- The T32XW can be wall or table mounted using the included wall mount bracket for full tilt adjustment of the indicator.
- Software lockouts of menu operations for setup, readout, mode, unit and print menu options. In NTEP certified operation, certain menu options are automatically locked-out.

Dimensions

Standard Features

OHAUS VX Series Floor Scales and Platforms

Welded steel rib and thick top plate design provides structural stiffness

NEMA 4X/IP65 plastic Side-Access Junction Box with IP67 load cells limits effect of water on base

Painted tread plate platform top for added slip resistance

Fixed location foot mounting plates (set of two)

Ball-in-cup design feet attached to each loadcell

Features eyebolt (not included) mounting holes on sides (up to 5,000 lb models) or on top (10,000 lb models) to allow easier lifting and positioning
