

VS-2501

Veterinary Scale

For weighing small to large animals you cannot beat the quality and construction of the VS-2501. Its large 43" by 20" base is large enough for Lamas and Alpacas yet small and accurate enough for the smaller breeds of dogs.

Features include:

Large 43" x 20" stainless base is easily cleaned

Durable sealed metal display housing

1 inch LED digits for easy viewing from a distance

Included wall mount bracket with hardware for displaying eye level (Optional Column Mount)

100% tare allows the ability to tare the Handler for cases in which handicap weighing is needed.

Four 2 inch adjustable rubber feet ensures a stable platform on uneven surfaces.

Removable rubber matt ensures extra grip for the subject and easy cleanup.

Operated by AC Included or Rechargeable Battery

Tactical Keypad gives instant feed-back

User configured calibration

Capacity/Division:

kg 300kg x 0.1 kg

lb 700 lb x 0.2 lb
